

## SUMMARY OF PRODUCT CHARACTERISTICS

1. Name of the veterinary product

Calo-Pet®

2. Composition

Feed supplement containing calories with trace elements and vitamins for dogs and cats.

3. Pharmaceutical Form

Oils and fats, product of cereals, glucose 20%, water, product of sugar, pre-mix of vitamins and trace elements (4800 kcal / kg)

Ingredients: Crude fat 35.6%, crude protein 2.4%, crude ash 0.5%, crude fibre 0%.

4. Action of the Product

Calo-Pet® is a concentrated supply of energy in a pleasant-tasting paste, with vital vitamins, minerals and taurine, a metabolite of the amino acid cysteine, which is essential for cats.

Taurine deficiency in cats leads to a degenerative lesion of the retina (area centralis) which manifests itself in reduced vision and mydriasis and later on leads to blindness, dilated or congestive cardiomyopathies can also occur.

Thanks to the paste's pleasant taste, it can be given effectively during loss of appetite and insufficient food intake.

5. Particulars (additives per kg)

Vitamin A 200 000 I.U., Vitamin D3 8 500 I.U., Vitamin E-acetate 1 200 mg, Vitamin B1 400 mg, Vitamin B2 40 mg, Vitamin B6 200 mg, Vitamin B12 400 µg, Biotin 50 000 µg, Calcium-D-pantothenate 400 mg, niacin 400 mg, taurine 4 000 mg, iron 100 mg, iodine 100 mg, manganese 200 mg, preservative agents: additives EEC.
